

The Rock Carvings of Calumet Park

This map shows the location of some 1,300 carvings on around 320 individual rocks along the lakefront at Calumet Park.

Photo icons indicate locations within several feet. The blue digits show the approximate number of sculpture-bearing blocks when there is more than one block at a particular spot. There are usually more carvings in a location than these numbers show since one block can host multiple carvings. Artworks on a single rock are separated by commas in the labels. Works on different rocks are separated with semi-colons.

North is to the left on this page. The following pages run north to south.

You can view an online gallery of the artwork at interestingideas.com.
